

About the subject music in the Swedish curriculum:

Music exists in all cultures and affects people, both physically, mentally and emotionally. Music as an aesthetic form of expression is used in a wide variety of contexts, has different functions and has different meanings for each and every one of us.

It is also an important part of what people share socially and can influence the development of the individual's identity.

In our time, music from different cultures and epochs is associated with other forms of art in new expressions. Knowledge of and in music increases the opportunities to participate in the cultural life of society.
