

## **TEST DESCRIPTION**

### **Advanced Studies in Interpretation 1**

**Application code:** KMH-CA161

#### **Test 1 – Digital audition**

The first audition is digital. This test is a selection that determines which applicants will get to take the remaining tests.

Record a video of yourself performing 1-2 pieces of your own choice (about 5-10 minutes), demonstrating your instrumental/vocal technique as well as your musical ability. Name the file with your name and instrument.

For applicants on piano, violin, viola and cello:

Write a short message about which campus (Edsberg or Valhallavägen) you would like to attend in priority. Mark the document with name, social security number and your instrument and make it a PDF file.

After you have submitted your application at [www.universityadmissions.se](http://www.universityadmissions.se) and once the application deadline has passed, you will receive more information via email about how to submit your test to KMH.

#### **Instructions for the video recording**

For your video to be admissible, you need to:

- Provide proof of your identity by showing a photo ID card together with your face in the video. State the name of the piece you will perform and the test code.
- Perform your piece. Your face and your hands must be visible throughout the entire video. It should be easy to see both you and your instrument.
- Record your video in one single uninterrupted take. No clips or other edits are allowed.
- It is fine to make your video with a mobile phone, but make sure your setup allows you to record without too much room acoustic, distortion, or noise. All recordings should have good image quality with sharp focus and good light.
- Allowed formats are MP4 or MOV. Try to keep the file size around 500 MB if possible.

If you do not follow these instructions, and we find that your video shows signs of modification, your audition may be disqualified from consideration.
